Inspire India Defence Tech Exhibition

Organized by DRDO in collaboration with KIYE Foundation

Date: 28th February 2025

Venue: Gachibowli Stadium, Hyderabad

Students: BTech 1st Year – 300 students

Objectives:

1. **Promote Scientific Awareness:** To foster interest and awareness among students regarding advancements in defence technology and research.
 2. **Industry Interaction:** To provide students an opportunity to interact with leading scientists and directors from DRDO, ISRO, BHEL, HAL, ECIL, and other prominent organizations.
 3. **Skill Development:** To enhance students' understanding of real-world applications of science and technology in defence and industrial sectors.
 4. **Career Exploration:** To introduce potential career pathways in defence research and technology development.
 5. **Innovation Inspiration:** To encourage innovation and scientific inquiry through exposure to cutting-edge technologies and live demonstrations.
-

Outcomes:

1. **Increased Knowledge:** Students gained insights into advanced defence technologies, research methodologies, and their practical applications.
2. **Networking Opportunities:** The event facilitated meaningful interactions between students and professionals from prestigious R&D institutions.
3. **Enhanced Career Awareness:** Students improved their understanding of career possibilities in defence and technological research sectors.

4. Motivation for Innovation: The exhibition inspired students to pursue innovative projects and participate in future technology-related initiatives.
 5. Practical Exposure: Students experienced live demonstrations from leading organizations, bridging the gap between theoretical knowledge and practical implementation.
-

Summary Report:

The Inspire India Defence Tech Exhibition held on 28th February 2025 at Gachibowli Stadium, Hyderabad, was a resounding success. The event was organized by DRDO in collaboration with the KIYE Foundation to celebrate National Science Day and featured live exhibitions and interactive sessions with top research organizations.

Key participants included DRDO, ISRO, BHEL, HAL, ECIL, ITC, and several other industry leaders. Students had the opportunity to engage directly with scientists and directors from these organizations, gaining a deeper understanding of ongoing projects and future technological directions.

The exhibition provided an immersive experience through live demonstrations and interactive sessions, which allowed students to grasp complex scientific concepts in a practical setting. The event successfully aligned with its objectives by fostering scientific curiosity, offering career insights, and encouraging innovation.

The free entry allowed broad participation, ensuring that students from diverse backgrounds benefited from the exhibition. Overall, the event was highly informative and left a lasting impact on attendees, encouraging them to explore careers in defence technology and scientific research.
