Student Club Rules

1. Responsibilities & Reporting

- Club duties to be carried out throughout the academic year.
- All reports and concerns should be directed to the TPO from student core committee.
- HODs are not responsible for club-related duties. Any changes or issues must be communicated to the TPO.

2. Event Planning & Execution

- A detailed event plan must be submitted to the TPO and team before execution.
- TPO will take approval from Principal and Director to proceed with events.
- No funds will be collected from students under any circumstances without prior approval from Director.

3. Meetings & Communication

- The core committee must attend a monthly meeting with the TPO to discuss club progress and upcoming events.

4. Attendance & Participation

- Attendance at club events is mandatory for registered members.
- Active participation in events will be considered for recognition and rewards.

1. Robotics Club

Description: A platform for students passionate about robotics, automation, and technology, providing hands-on learning and project-building opportunities.

Objectives:

- To introduce students to robotics concepts and programming.
- To develop innovative projects and participate in competitions.
- To encourage problem-solving and teamwork skills.

Events:

1. Workshops and Training

- Introduction to Robotics
- Programming Basics (Python, Arduino, etc.)
- Electronics and Circuit Design
- AI and Machine Learning for Robotics

2. Guest Lectures – Inviting experts to discuss advancements in robotics.

3. Design and Build Projects

- Line-Following Robots
- Obstacle-Avoiding Robots
- Pick-and-Place Robots
- Drones

4. Project Demonstrations

- Video presentations for the college's official page.

2. Artificial Intelligence Club

Description: A club for students interested in AI, machine learning, and data science, focusing on real-world applications and innovation.

Objectives:

- To provide training in AI concepts and programming.
- To develop AI-based projects and research initiatives.
- To engage in competitions and industry collaborations.

Events:

1. **AI Bootcamp & Training Sessions**
 - Hands-on Python for AI
 - Neural Networks & Deep Learning
 - AI for Real-World Applications
2. **Guest Lectures** – Industry professionals sharing AI trends.
3. **AI Projects & Hackathons**
 - AI Chatbot Development
 - Sentiment Analysis
 - Face Recognition System
4. **AI Awareness & Community Engagement** – AI workshops for school students.
5. **Competitions** – Kaggle Challenges, AI coding contests.
