MOCK INTERVIEWS AT ELLENKI COLLEGE OF ENGINEERING AND TECHNOLOGY

Dates: 20th to 24th June 2025

Objectives:

- To provide a real-time simulation of campus recruitment processes for final-year students.
- To train students in answering HR and technical questions with clarity, precision, and confidence.
- To improve students' verbal and non-verbal communication through structured observation and expert feedback.
- To bridge the gap between academic learning and industry expectations.
- To prepare students for different types of interviews including one-on-one, panel, stress, and behavioral interviews.
- To expose students to corporate culture and professional conduct.
- To build time management skills during interviews and group discussions.
- To encourage students to research job roles, companies, and industry trends before interviews.
- To boost self-confidence by eliminating interview fear and hesitation.
- To help students craft and present professional resumes aligned with job roles.
- To train students in critical thinking and decision-making through scenario-based questions.

Summary:

The **Mock Interview Week** was organized by the **Training and Placement Cell** of Ellenki College of Engineering and Technology from **20th to 24th June 2025**. The event was designed as a key pre-placement initiative to enhance the **employability and job-readiness** of final-year students across all departments.

Each day was structured to include a mix of **HR interviews, technical rounds, and group discussions**, mimicking real campus placement scenarios. Students were interviewed in a formal setting by a panel of **faculty experts, industry professionals, and alumni** from reputed companies.

Interview panels evaluated the students on core technical knowledge, analytical thinking, attitude, communication skills, and professional behavior. Sessions also included **mock Aptitude Tests, resume reviews, and feedback clinics**.

Students were provided with **detailed evaluation sheets**, verbal feedback, and follow-up suggestions. Faculty mentors closely tracked the performance of students and recommended focused training modules for further improvement.

The initiative was met with overwhelming participation, enthusiastic feedback, and visible improvement in student confidence and readiness.

Outcomes:

- **Over 250 students** from various engineering streams actively participated in the mock interviews.
- **Improved technical articulation** and interview etiquette observed in a majority of students.
- Students reported a significant **reduction in interview anxiety** and better presence of mind during Q&A rounds.
- A clear understanding was developed on how to present a resume and justify their skills and experiences.
- **Personalized feedback reports** helped students correct specific gaps in knowledge and behavior.
- A segment of students was shortlisted for **advanced mentoring** and resume building workshops.
- Enabled students to identify **current hiring trends** and **tailor their preparation** accordingly.
- Positive feedback from interviewers highlighted the **professionalism and preparedness** of Ellenki students.
- Strengthened collaboration between the Placement Cell, departments, and external resource persons.
- Set a strong foundation for **upcoming campus drives** and boosted the placement readiness of the 2025 batch.
