WORLD ENVIRONMENT DAY CELEBRATIONS

Ellenki College of Engineering and Technology

Date: 5th June 2025

Theme (as per UNEP 2025): “Land Restoration, Desertification, and Drought Resilience”

OBJECTIVES:

- To raise awareness among students and staff about pressing environmental issues and the urgent need for sustainable practices.
- To inspire students to take action for environmental conservation, restoration, and climate responsibility.
- To promote eco-conscious behaviors on campus through tree plantation, clean-up drives, and green pledges.
- To integrate environmental themes into academic, technical, and co-curricular activities.
- To encourage participation in environmental debates, poster-making, and innovation-driven solutions for real-world ecological problems.
- To foster collaboration among students, faculty, and local environmental organizations.
- To highlight the role of engineers and technocrats in developing sustainable technologies and green innovations.
- To instill in students a lifelong commitment to protect natural resources and biodiversity.

MSME-HI

OUTCOMES:

- A large-scale **tree plantation drive** was successfully conducted on campus, with active participation from students and faculty.
- Students created informative posters, models, and prototypes that promoted green technology and sustainability.
- A guest talk by an environmental expert emphasized the importance of land restoration and climate resilience in Telangana and India.
- The event encouraged student clubs (NSS, Eco Club, etc.) to take up year-long environmental initiatives.
- Eco-friendly practices such as no-plastic zones, rainwater harvesting awareness, and recycling drives were introduced.
- Students were made aware of the interdependence of environmental health and technological progress.
- Faculty and students took the “**Green Pledge**” to adopt responsible habits like reducing waste, conserving water, and minimizing carbon footprint.
- Campus greenery was improved, enhancing the aesthetics and ecological value of the Ellenki environment.

SUMMARY:

World Environment Day was celebrated with great enthusiasm at **Ellenki College of Engineering and Technology** on **5th June 2025**, aligning with the global theme “**Land Restoration, Desertification, and Drought Resilience.**” The event began with a solemn message about the significance of environmental protection, followed by a **tree plantation ceremony** led by faculty and student leaders.

Throughout the day, the campus was buzzing with various eco-themed activities — from poster-making and slogan-writing competitions to seminars and awareness rallies. The event highlighted the critical need for land restoration and climate adaptation in the face of global challenges. A powerful guest session reminded students of their responsibility as future engineers to design sustainable solutions.

The celebrations left a lasting impression on the participants and sparked a green movement on campus. Students resolved to act as eco-warriors and take small yet impactful steps towards a cleaner, greener tomorrow.

Ellenki once again reaffirmed its commitment to academic excellence blended with social and environmental responsibility.
